

# EUSEW 2013

June 27, 2013, Brussels

## **Stronger Ecodesign & Energy Labelling: Cornerstones of EU Energy & Climate Policies**

The event was organised by INFORSE-Europe (Contact: Gunnar Boye Olesen) and Coolproducts Campaign with EEB (Contact: Stephane Arditi, Simon Nazer), and others in cooperation with European Commission, DG Energy, Ecodesign Team.

Proceedings: [http://www.inforse.org/europe/conf\\_EUSEW13\\_27\\_06.htm](http://www.inforse.org/europe/conf_EUSEW13_27_06.htm)

# Ecodesign and Energy Labelling Saving Potentials

Low estimate : **~90 Mtoe (~ 25% of our 2020 targets)**

“adopted ecodesign and labelling measures” -GREEN PAPER A 2030  
framework for climate and energy policies-

HIGH ESTIMATE: **~800 TWh (~ 50% of our 2020 targets)**

Proxy aggregation of adopted measures and 2013 plans

+ **equivAlent to ETS** with regard CO2 savings by 2020 (ECOFYS)

# Coolproducts Seminar Goals

Setting the scene for the review/revision process

Creating positive atmosphere for cooperation on the review/revision process

***To secure the current savings potentials and unleash further savings in the future***

# Agenda

2 forward looking presentations

A discussion panel on stakeholders visions for the Future
