

# Відновлювана енергія для централізованого теплопостачання в Україні

Zoom-вебінар

16 березня  
14:00

Civil Society for Sustainable Energy - Local to National in Eastern Europe ( SELNEE )

## Renewable Energy for District Heating in Ukraine

Resource Library, Feasibility Studies, Planning Tools

16 March, 2023, 14:00-16:00 (EET)

Zoom webinar

### Program

#### Opening by the organizers

**14:00** **Oleksandra Tryboi**, Civic Organization “Renewable Energy Agency”  
**Judit Szoleczky**, International Network for Sustainable Energy «INFORSE-Europe»

#### Presentations of the speakers

Time	Topic	Speaker
<b>14:10</b>	Technology Library for Renewable Energy District Heating (DHRL)	<b>Gunnar Boye Olesen</b> , International Network for Sustainable Energy «INFORSE-Europe», <b>Tony Brink</b> , NFRE, Denmark
<b>14:25</b>	Installation of a heat pump for district heating in the city of Nizhyn, feasibility study	<b>Halyna Istrati</b> , <b>Jakob Worm</b> , PlanEnergi, energy planning company, Denmark
<b>14:40</b>	Analysis of the potential of using secondary heat resources and geothermal energy for centralized heat supply in Ukraine	<b>Volodymyr Kramar</b> , <b>Oleksandra Tryboi</b> , Civic Organization “Renewable Energy Agency”
<b>15:00</b>	Calculation tools for preliminary assessment of the effectiveness of the implementation of energy-saving measures	<b>Volodymyr Kramar</b> , Civic Organization “Renewable Energy Agency”
<b>15:30</b>	<b>Questions and answers. Dialogue with participants</b>	
<b>16:00</b>	<b>Closing of the webinar</b>
