European Policies

Ecodesign and Standards for cleaner heating

INFORSE-Europe staff worked with the European Environmental Coalition on Standards and the Coolproducts Campaign on EU ecodesign regulation, EU product energy labelling, and European standards to have higher efficiency and cleaner combustion of boilers and room heater, including wood stoves that have large potentials to become cleaner.

Heating & Cooling in NECPs – Study started in cooperation with the Cool Heating Coalition, researched by INFORSE-Europe. Financed by the European Climate Foundation (finalized in June 2025)

Outreach: Sustainable Energy News

Newsletter: With support from the projects, the No. 87 issue of Sustainable Energy News was published in November 2023. It includes news from the network, and projects of the members. The issue has a special theme on sufficiency.

The issue was printed in 1500 copies, mailed to 900 organisational receivers and distributed at UNFCCC COP28 in Dubai. The issue is available online as pdf, and a link to download it was sent to INFORSE's online contacts.

Organisational Development

At INFORSE-Europe's office we have had several volunteers, trainees, and a students who contributed to the work during the year. The heating study was implemented with extra staff from the network.

The INFORSE-Europe board and the Secretariat also prepared a Seminar and General Meeting in September 2024.
